### Description

In buying a flat here, new owners will get a comfortable and high quality flat in the city centre, while maintaining the privacy and convenience of everyday life. Modern and carefully selected top quality materials and the latest technologies are being used for the structure of the buildings and furnishings. The rational and convenient planning of the residential buildings will make life comfortable and cozy in the centre of Riga. The project developers have solved the parking problems characteristic of the city centre. A wide two-level underground car park will meet the needs of residents. Modern elevators will link the car park to flat entrances.
