Description

In the quiet part of Bulduri on Jasmina Street, just 700 meters from the sea, the Jasmine Garden is located a new residential complex with a total area of 4600 m². 48 apartments in the four buildings of the project Luisa, Patricia, Stephanie and Aurelia will be home to those who have long dreamed of living by the sea. The main task set for the architects of the bureau "AB3D" and the author of the project Jurisen Mitenbergs was the organic integration of the building into the Jurmala environment and the surrounding historical buildings typical for this part of Bulduri. Thus, instead of one large house, four separate three-storey buildings were created with a common underground car park. This principle allowed to arrange the erected volumes between the preserved trees, without disturbing the harmony of the landscape and creating an environment of unhurried way of life characteristic for the resort towns.
